

## D2L Pearson Integration

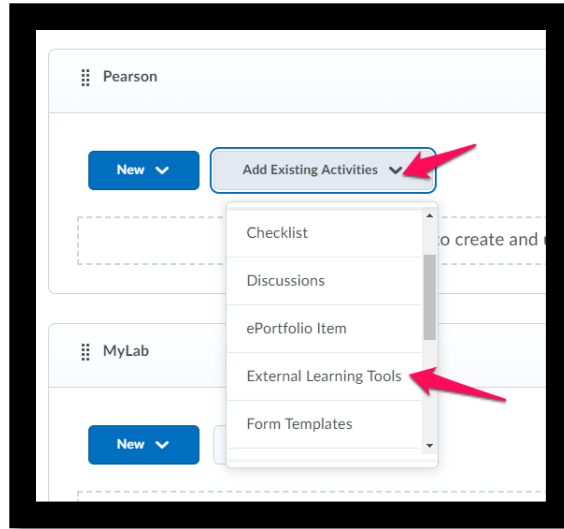

1. Enter Course
2. Find and click the 'Content' area of the course. This is where modules can be added by the professor

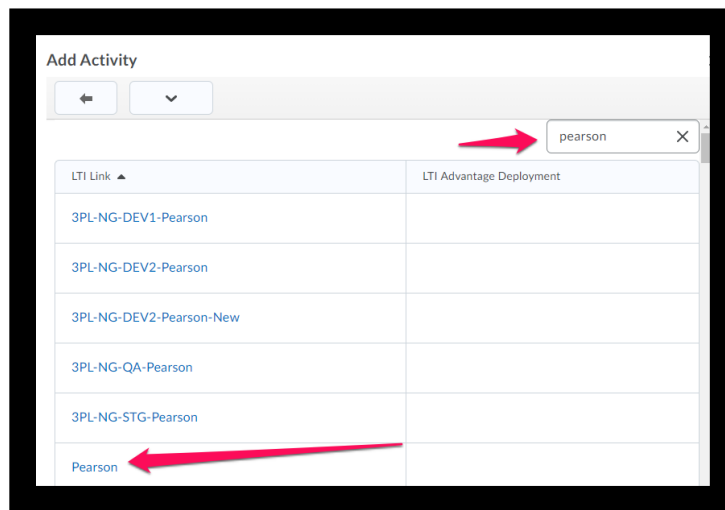

3. Create a module, or choose an existing module for the placement of the Pearson link. In the created module, select 'Add Existing Activities'

4. Choose 'External Learning Tools'.

5. Search for 'Pearson'. Select the best option.

6. After selecting the external learning tool, click it. Follow the prompts to complete the Pearson Integration
